

## W-LITE

### WEICOMP Lite Series bench scale

Compact and versatile bench scale for industry and commercial use.

- Reliable, accurate, and designed for everyday use, our single-cell bench scale is the ideal solution for small and medium-capacity applications. Built with a sturdy painted steel structure and a stainless steel top plate, it guarantees durability and resistance to stress. The aluminum load cell, with IP65 protection, ensures consistent performance.

**The best solution  
for advanced industrial  
applications**

- Equipped with a 5-button multifunction weight indicator in ABS, with 230VAC power supply and integrated rechargeable NiMH battery, it offers maximum flexibility of use. Belonging to accuracy class C3, this scale is recommended for industrial and commercial applications that require reliability and precision in every weighing.

## TECHNICAL FEATURES - PLATFORM

- Sturdy structure in blue painted steel.
- AISI 304 stainless steel top plate with satin finish.
- Loadcell overload protection stops.
- Aluminum load cell with IP65 protection.
- Adjustable feet.
- Level bubble integrated into the structure.
- OIML R60 class C3 approval (optional).

## MAIN FUNCTIONS

- Conversion of weight into lb, or with freely programmable conversion factor.
- Totalization.
- Formulation.
- Automatic tare.
- Animal weighing.

## OPTIONS

- Stainless steel column, available heights 350 / 500 / 700 mm.
- Roller unit.
- Calibration certificate.
- 3000e approvals.
- Alibi memory.

## TECHNICAL FEATURES - WEIGHT INDICATOR

- ABS casing, easy to clean and resistant.
- Backlit 25mm LCD display with 6 digits, high contrast and icons for active function indication.
- Functional waterproof 5-key keyboard.
- Adjustable tilt support bracket for bench and wall mounting.
- Suitable for use on a bench, column, or wall.
- 24-bit A/D converter, 4 channels, max. 200 conv./sec. and up to 8 signal linearization points.
- RS232 (RJ11 port) for thermal printer, repeater, or PC communication.
- Load cell connection to the weight indicator via 6-pin connector.
- Internal power supply 110 / 240 VAC, with EU or UK plugs.
- Integrated rechargeable NiMH battery, with approx. 40 hours of autonomy.
